Improving Employment Outcomes for People with Autism Spectrum Disorder (ASD)

The **Social Competence & Treatment Lab (SCTL)** at the Department of Psychology at **Stony Brook University** is conducting a research study to better understand the present state of **employment for adults with ASD**.

We are seeking **employers** who work with at least one individual diagnosed with **ASD** to complete an approximately 15-minute **online survey**. Participation is completely voluntary.

The **potential benefit** of the study is that the results will help researchers gain a better understanding of the multiple factors **influencing employment success** for **adults with ASD**.
