

## How Scientists View Science Communication Training - Pilot Study

The **Social Competence & Treatment Lab (SCTL)** in the Department of Psychology at **Stony Brook University** is conducting a pilot study in conjunction with the **Alan Alda Center for Communication Science** and **George Mason University's** Department of Communication to better understand how scientists view science communication training and to facilitate the development of coding procedures and reliability.

We are seeking **graduate students, post-docs, and faculty members (18 years or older)** to complete an **online pilot research study**.

This study involves **video recording and uploading two videos:**

- A 60-second speech in English discussing your work and/or research.
- A 2-minute conversation in English with a friend/confederate discussing why they should participate in your work.

**Participation is voluntary.**

Participants who will be compensated with a \$10 Amazon.com gift card.

To enroll, please use the following link or QR code below to access the online consent form:
