

## **Online Promoting Resilience in Teens with ASD (OPRITA) Study**

The **Social Competence & Treatment Lab (SCTL)** in the Department of Psychology at **Stony Brook University** is conducting an **Autism Science Foundation (ASF)-funded online research study** to better understand and support emotional resilience and stress coping skills among teens with autism spectrum disorder (ASD).

We are seeking **teens (ages 11- 16 years) with ASD** to complete an **online research study**. This study involves **2 virtual Zoom “visits”** where participants will answer questionnaires and complete an online activity which may **improve emotional resilience and stress coping** skills.

Participation is voluntary.

Participants will be compensated with a \$35 gift card.

For more information, send us an email, give us a call, or scan the QR code below/go to <https://bit.ly/OnlinePRITA> to complete the online screening and interest form.
